To Whom It May Concern,

We are writing to confirm that the products manufactured by Trudi, SPA, under the brand names: Trudi, Sevi and Olli, surpass standards of safety, non-toxicity and eco-friendliness, as governed by guidelines set by the ASTM – *The American Society of Testing Materials*. Trudi brand plush products also comply with all applicable *US Statutory Bedding Laws*.

Testing takes place at a certified independent laboratory hired by Trudi, SPA to declare merchandise as acceptable and safe for the European and American Markets.

A very few Items do not meet American or *ASTM* standards, and they may be shown in our catalogue, as it also serves the EU. These items are designated as *Not Available in the USA*. They are not imported, and we don't stock them on our shelves.

If you have questions regarding standards, please feel free to call us.

Thank you,

Dr. Robert Leuchtner  
President, Magicforest
