*June 21, 2007*

### *Certification*

*Since the founding of the Käthe Kruse Company in the year 1905, the name Käthe Kruse has become synonymous with the production of high quality, age-appropriate toys for children. All Käthe Kruse toys are manufactured under stringent quality and safety standards, while articles are conceptualized, designed and produced on site. Because of this unique feature, Käthe Kruse can boast that superior products are still manufactured in Europe.*

*Our toys comply with EN71 (European Norm) and ASTM (American Society for Testing and Materials) and we exclusively use all natural fabrics tested by Öko-Tex. Furthermore, we only use beech wood that is polished to a finish with natural beeswax. As a matter of course, all our materials are lead free, non-toxic and tested for harmful substances.*

*Käthe Kruse Puppen GmbH  
Alte Augsburger Straße 9 • 86609 Donauwörth, Germany
