Dear Valued Customers;

In response to the latest concern regarding the use of lead paint in the manufacture of toys, PlanToys would like to reassure all retailers and consumers that PlanToys are manufactured with the highest safety and environmental standards in mind. We build 100% of our products within our own factory, so we control the entire process from wood selection, to manufacturer, to shipping.

- PlanToys is manufactured from recycled rubberwood
- PlanToys uses a natural kiln dry process, in place of chemical treatment, to preserve and stabilize the wood, thus makes all PlanToys products preservative-free
- PlanToys uses natural, water-based dyes in place of any type of paint to add accent colors
- PlanToys has won the following awards for safety, environmental sensitivity and innovative design:
 - ISO 9001
 - ISO 14000
 - OHSAS/TIS 18001
 - SA8000
 - ASTM & EN71
 - Parents' Choice
 - Oppenheim Toy Portfolio

PlanToys takes tremendous pride in providing safe toys that are manufactured with sensitivity toward our environment. For more information about PlanToys, please request a copy of the PlanToys Leaflet (item #84340), or contact our office at (866) 517-7526.

Sincerely,
Nittaya Zeugfang
President

Green Toy Green Company

Plan Creations Co. Ltd, founded in 1981 is the manufacturer and distributor of educational wooden toys under the brand 'PlanToys'. Our company creates toys that inspire imagination along with being environmentally responsible and maintaining good values.

With PlanToys' innovation and quality, our toys have been welcomed into the hearts of many children around the world. We do our best to make a positive impact on all areas such as the nature or the working environment. In every stage of production, from selecting materials to making the toys, we aim to satisfy all parties rather than targeting only business gains.

PlanToys selects environmentally-friendly materials

*** Preservative-Free Rubber wood**

PlanToys is the first and only manufacturer to use chemical-free wood taken from rubber trees that no longer provides latex. Most of the rubber trees that stop producing latex are 25 years old and would be cut down and burnt to make weak quality coal that is ecologically harmful. PlanToys has raised the value of rubber wood to its highest and helped sustain a healthy ecosystem.

*** E0 (Non-Formaldehyde Glue)**

PlanToys realizes the harm of Formaldehyde glue often found in wooden toys. We are the first to come up with special materials and process to remove the glue from our wood. This is for the safety of all children which is PlanToy's top concern.

*** Water Based Color**

PlanToys, Inc.

PO Box 622 Palo Alto, CA 94302

PlanToys uses non-toxic and environmentally-friendly colors that are safe for children of all ages, including those under 3 years old.

*** Recyclable Package**

PlanToys Key Messages

All Natural

PlanToys are made from natural wood. With our toys, children can play and learn while being close to nature. We use chemical-free rubber wood and non-toxic colors. All of PlanToys go through a special preservation process to maintain the natural integrity of the wood and prevent it from becoming moistened. As the wood keeps its natural essence, children can experience nature in our toys. The exposure to nature through PlanToys helps nurture a calm and sensitive child on his or her path towards a positive development of personality and behavior.

High Quality & Safety

At PlanToys, much work and care goes into the design and manufacturing stages to ensure high quality and safety of the products. We team up with professional designers and child development experts to create innovative toys for children to play, learn, and have fun with. PlanToys guarantees the safety of our toys. From preserving wood to applying colors to assembling, our production process is chemical free and non toxic. All of PlanToys pass quality standard inspection before being packaged and delivered to your home.

PlanToys is a product of recognized quality, meeting industrial standards including EN71, ASTM, Green Dot, ISO9001, ISO14001, OHSAS/TIS 18001, SA8000 and E0 (Non-formaldehyde Glue)

We create toys according to our motto “*Innovative toys for the development of every child*”. The innovative designs and development-conducive features of our toys are not only fun to play with but can stimulate children’s physical growth through the use of muscles and the movement of eyes and hands, promoting creativity, imagination, intelligence, and inspiring learning. Children will be engaged in logical thinking and problem solving, strengthening their social skills while playing with family and friends.

Innovative

PlanToys is a product of imaginative ideas and innovative designs embraced by children all around the world. As a result, our company has been honored with many awards recognizing our inventive creations such as the Reddot Award (Germany), Parents’ Choice (USA), and many more that can guarantee the quality and success of PlanToys and our innovation.

Social & Environmental Commitment

PlanToys recognizes the importance of building a strong society and promoting quality of life together with an awareness for environmental conservation. That is why we are committed to minimizing our impact on nature. PlanToys is the first toy manufacturer to successfully reprocess and utilize wood from rubber trees that no longer provides latex, and we do our part in reducing waste by using recyclable packaging. PlanToys initiated a work-generating scheme to provide jobs and promote better living for villagers. We also encourage people with disability to join our team. Since PlanToys’ establishment, we have devoted our efforts towards the well being of children in society, and have established institutions such as Toy Museum, Plan Neramit, and Sarn Saeng-Arun Organization to serve as a foundation upon which a healthy society can be built.
